EDUCATION

BFA Graphic Design

George Mason University

LANGUAGES

Tagalog (Receptively bilingual)

PROFESSIONAL EXPERIENCE

Fearless — Product Designer II
October 2023 to December 2024

- Led UX/UI design for an internal NFL database used by coaches, front-office staff, and HR, establishing a custom UI library based on NFL branding guidelines. Partnered with four developers to implement scalable Figma components, ensuring design consistency and seamless front-end integration. Collaborated with NFL VPs to align the product with business goals and mentored a junior designer in best practices and Figma workflows.
- Redesigned the Federal Maritime Commission's website and streamlined the process of updating content for the web team through Wordpress, a content management system. As the sole UI designer, created a UI component library based on the U.S. Web Design System to ensure consistency and accessibility. Collaborated with a UX designer, researcher, and developers to define user personas, wireframes, moodboards, mockups, and the product roadmap.

Fearless — Product Designer II
June 2020 to July 2022

- Transformed the Centers of Medicare & Medicaid Services (CMS) Digital Submission Portal replacing paper-based State Plan Amendments and 1915 waivers, reducing the burden on all 52 states and CMS personnel. This included collaborating with a team of 6 designers and researchers conducting user interviews, designing hundreds of high-fidelity interactive prototypes, and designing/building/maintaining a customized UI component library in Figma.

Sinclair Broadcast Group — Web Designer II
May 2019 to May 2020

- Designed high-fidelity wireframes, site maps, user flows, responsive visual mockups, and interactive prototypes with SEO tracked by Google Analytics.
- Improved design team's efficiency by implementing reusable style guide components to prioritize design iteration and collaboration cross-functionally, increased time for development, and reduction of time spent on quality assurance.

Under Armour — Senior Graphic Designer
September 2018 to January 2019

- Conducted market research and performed competitive analyses of e-commerce holiday gift guides focused on interaction design, color/texture patterns, marketing language, imagery usage, and responsive adaptations for web and mobile.
- Designed featured athletic wear digital campaigns for the Under Armour website, the Under Armour mobile app, social media platforms, and email newsletters.
- Streamlined e-commerce design workflow by converting existing Photoshop templates into responsive Sketch libraries, reducing time spent designing by half.
- Facilitated and organized workshops to train the design team to use the Sketch app interface and how to consistently and more efficiently design our deliverables.

Deloitte Digital — UI Designer/Consultant
June 2015 to August 2018

- Created responsive web and mobile apps for Amtrak, The Department of Education, The Department of Defense, IRS, The Center for Disease Control, and The Food and Drug Administration. Implemented responsive UI components,

visual mockups adhering to Section 508 compliance and WCAG accessibility standards, interactive prototypes, design systems, and branding style guides.

- Collaborated with UX designers, engineers, and content strategists to conduct user research, user testing, user flows, personas, journey mapping, interactive high-fidelity wireframes, and visual quality assurance.

- Hosted and organized Deloitte Digital Unplugged, a series of monthly studio culture initiatives celebrating DEI initiatives, cultivating camaraderie, and creating a welcoming workplace environment.

AWARDS

Fearless Purple Sauce Award Recipient 2024
Fearless' 'Purple Sauce' Award is given to the person who personifies Fearless and embodies all four pieces of the company culture code: Creating belonging, taking initiative, opening dialogue, and making an impact.
